

## "It Seems as Though my Back Would Break."

Is it not true? Women suffer, feel the very life crushed out of them, grow old before their time. Each morning wake up determined to do so much before the day ends, and yet—

Before the morning is very old the dreadful BACKACHE attacks them, the brave spirit sinks back in affliction; no matter how hard they struggle, the "clutch" is upon them and they fall upon the couch crying:

"Why should I suffer so? What can I do?"

The answer is ready, your cry has been heard, and a woman is able to restore you to health and happiness.

Backache is only a symptom of more fatal trouble—head its warning in time.

Lydia E. Pinkham's Vegetable Compound will stop your torture and restore your courage. Your pains come from unnatural menstruation or some derangement of the womb. Let those who are suffering read Mrs. Morton's letter and be guided by her experience.

### AN OPEN LETTER TO WOMEN.

"DEAR MRS. PINKHAM—I have been so delighted with Lydia E. Pinkham's Vegetable Compound I thought I would write and thank you. My system was entirely run down. I suffered with terrible backache in the small of my back and could hardly stand upright; was more tired in the morning than at retiring at night. I had no appetite. Since taking your Compound I have gained fifteen pounds, and am gaining every week. My appetite has improved, and no backache, and I look better than I ever looked before."

"I shall recommend it to all my friends as it certainly is a wonderful medicine."—MRS. E. F. MORTON, 826 York St., Cincinnati, O.

When a medicine has been successful in restoring to health more than a million women, you cannot say, without trying it, "I do not believe it will help me." If you are ill, don't hesitate to get a bottle of Lydia E. Pinkham's Vegetable Compound at once, and write Mrs. Pinkham, Lynn, Mass., for special advice—it is free.

**\$5000 REWARD** Owing to the fact that some skeptical people have from time to time questioned the genuineness of the testimonial letters we are constantly publishing, we have deposited with the National City Bank of New York, N. Y., a sum of \$5000, which will be paid to any person who can show that the above testimonial is not genuine, or that the writer's special permission.—LYDIA E. PINKHAM MEDICINE CO.

The orange came to Europe from Africa in the eleventh century. Sir Walter Raleigh brought it to England in the sixteenth century. It was first planted in America in 1788.

The well posted druggist advises you to use Wizard Oil for pain, for he knows what it has done.

Discretion in speech is more than oratory.

**\$25.00 A DAY EASILY MADE** by wide awake farmers who handle our patented Self-Propelling Farming Machine. It sells on sight as it entirely does away with the drudgery of churning. Every farmer knows what this means to his life. We want one good agent in every county, to whom we are prepared to offer liberal terms. Write us today and get the agency in your county as it means big money to you. The Self-Propelling Farming Machine Co., 116 Unity Bldg., Chicago, Ill.

A single leaf of the orange tree, carefully planted, will often take root and grow.

**Try Grain-Oil, Try Grain-Oil.** Ask your druggist to-day to show you a package of GRAIN-OIL, the new food product that takes the place of coffee. The children may drink it without injury as well as the adult. All who try it, like it. GRAIN-OIL has that rich brown of Mocha or Java, but it is made from pure grains, and the most delicate stomachs receive it without distress. If the price of coffee, 15c and 25c per package. Sold by all grocers.

**Pa: What's a baby crying for, Dolly?** Dolly: Just 'cos I showed her how to sat her cake.

## POOR QUALITY

THE SASKATOON DISTRICT. ONE OF THE NEW WESTERN CANADA DISTRICTS.

The Great Advantage of Settlement Where the Soil is of Unexampled Fertility.

During the past year or two a large number of American settlers (those going from the United States to Canada), have made homes in the Saskatoon district in Western Canada. They have found the climate all that could be desired and their prospects are of the brightest. In writing of it a correspondent says:

"The lands for sale are choice selections from a large area, and every farm is within easy distance of a railway station. Experience has shown that this district enjoys immunity from summer frost, from cyclones and blizzards. The South Saskatchewan, flowing through the tract, is one of the finest rivers in the country, being navigable and having an average width of stream of 1,000 feet."

The agents of the Canadian government, whose advertisement appears elsewhere in your paper and who will be pleased to furnish full information, tell me that within the limits of the tract there are two distinct varieties of soil. One is a rich black loam, and the other is a somewhat lighter loam, containing a small admixture of sand.

There appears to be no appreciable difference between the fertility of these two kinds of soil. Both are silvicultural in their characteristics, both are marvellously productive, and both rest upon a subsoil of clay. The advantage of this formation is that it retains the heat of the day during the night, and is favorable to the early maturing of crops. Every kind of crop will here attain the highest perfection of quality. The land is admirably adapted for stock-raising and dairy farming, as well as growing grain. Some idea of the richness of the natural grasses of the prairie may be formed from the fact that more than 200 tons of hay were gathered within a short distance of Saskatoon and stored up for use during the winter. A growth so luxuriant demonstrates beyond all possible question the suitability of the land for pasturing cattle, and no doubt this important industry will be largely carried on.

Nature has been lavish in her gifts to this territory. Not only is the soil of unexampled fertility, but the climate is delightful and healthy. Such is the testimony of every settler, and this testimony is confirmed by enthusiastic opinions from every traveler, explorer, missionary or newspaper correspondent who has visited this territory.

According to the Wheel (London) the police of St. Petersburg affect to regard the skirt of the cyclone as a menace both to the safety of the wearer and the public in general, and have laid down a law that no lady cyclist shall ride through the streets of the Russian capital unless clad in the bifurcated garment.

**Information Regarding Lost Friends.** Heirs, employment, addresses, etc., procured by writing to Sam Rawson, Information Bureau, Denver, Colorado.

**The Cyclone's Skirt.** According to the Wheel (London) the police of St. Petersburg affect to regard the skirt of the cyclone as a menace both to the safety of the wearer and the public in general, and have laid down a law that no lady cyclist shall ride through the streets of the Russian capital unless clad in the bifurcated garment.

**South Dakota Farms.** Is the title of an illustrated booklet just issued by the Chicago, Milwaukee & St. Paul Railway, descriptive of the country between Aberdeen and the Missouri River, a section heretofore unprovided with railway facilities, but which is now reached by a new line of the Chicago, Milwaukee & St. Paul Railway. Everyone contemplating a change of location will be interested in the information contained in it, and a copy may be had by sending a two-cent stamp to F. A. Miller, General Passenger Agent, Chicago, Ill.

**Drilled Dogs.** For some time past a large battalion of dogs has been drilled in the village of Leerschen, near Cologne, to operate in conjunction with the German Ambulance Corps. Each dog is supplied with a saddle, in which are pockets containing all that is necessary for the first dressing of a wound, also a large gourd of brandy.

**Collecting Bicycle Tax.** The French government, having experienced considerable difficulty in collecting the tax on bicycles, has introduced a new method of collecting that impost. On payment of the annual cycle tax the authorities provide a small metal plate which the owner is required to exhibit on a prominent part of his wheel. Any machine not bearing the mark will be seized and its owner summoned and fined. The tax levied is \$1.20 for an ordinary bicycle, \$2.40 for a tandem and the same for a motor cycle. A different style of plate will be issued for each year.

**Horses for South Africa.** The South American horses supplied to the British cavalry in South Africa seem more satisfactory than any other mount. Coming from a grass country, where horses travel thirty to forty miles a day with heavy riders, a class of animal has been developed which combines the constitution and stamina which are lacking in the Australian and the Arab for cavalry.
